EXPERIENCE

Freelance Full Stack Developer   July 2025 – Present

- *Client Project:* ACS Services Website
- Developed and deployed a production business website using **ReactJS and TailwindCSS** with fully responsive UI across mobile, tablet, and desktop devices.
- Built backend functionality using **Supabase** for database storage and lead management, and integrated **Resend API** to automate enquiry confirmations and client notifications.
- Implemented secure form validation, environment variable protection, and performance optimizations (lazy loading, asset compression) and deployed on **Vercel** with ongoing maintenance and updates.

PROJECTS

CodeFetch   🔗 Live , ⭘ Github , ▶ Video
JavaScript, HTML, CSS, and Chrome APIs

- Developed a Chrome extension using JavaScript, HTML, CSS, and Chrome APIs to help **students and junior developers** extract assets and reusable code from live websites.
- Implemented **one-click asset extraction** for images, videos, and SVGs using Chrome scripting and storage APIs, reducing manual inspection time by **60%+**.
- Built a **hover-to-inspect feature** that instantly displays and copies HTML/CSS of any DOM element, improving learning and rapid prototyping efficiency.
- Ensured cross-site compatibility and security by testing across **20+ websites** and deploying under **Chrome Manifest V3** compliance.

CodezY   🔗 Live , ⭘ Github
React JS, Tailwind CSS, n8n, Google Sheets API, Email API

- Developed a responsive registration portal that captures participant details and syncs data automatically with Google Sheets using **n8n** workflows.
- Integrated **n8n automations** for real-time email confirmations, data validation, and notifications without writing repetitive backend logic.
- Used **n8n's visual flow builder** to design event management automations including registration tracking, confirmation triggers, and data export.

EDUCATION

2024 - 2028	Bachelor's of Technology at **AKTU**	(GPA: 8) first year
2023 - 2024	Class 12th CBSE	
2021 - 2022	Class 10th CBSE	

SKILLS

Frontend	HTML, CSS, ReactJS, TailwindCSS
Backend	NodeJS, ExpressJS
