EXPERIENCE

Freelance Full Stack Developer

July 2025 – Present

- Client Project: [ACS Services Website](#)
- Built and deployed a responsive business website using **ReactJS** + **TailwindCSS** supporting **mobile, tablet, and desktop** users.
- Implemented backend lead management with **Supabase** and automated enquiry emails using **Resend API**; deployed on **Vercel**.

PROJECTS

PathFlow — AI-Powered Open Source Contribution Platform

[Live](#) , [Github](#)

FastAPI, Next.js, Celery, Redis, Qdrant, PostgreSQL, OpenRouter, Monaco Editor

- Built an AI-powered platform that analyzes GitHub repositories, generates documentation, visualizes architecture, and helps developers understand unfamiliar codebases for open-source contributions.
- Implemented **RAG-based semantic code search** and repository chat using **Qdrant** vector search and **OpenRouter**, enabling context-aware issue understanding and AI-assisted code generation.
- Developed a **browser-based IDE** with Monaco Editor, terminal access, file management, and Git integration for end-to-end development workflows.
- Automated GitHub workflows including branch creation, commits, pushes, and pull request generation; leveraged **Celery** and **Redis** for scalable asynchronous repository analysis.

Proctored Quiz Portal

[Live](#) , [Github](#)

ReactJS, Node.js, Express.js, MongoDB, Docker

- Built a full-stack **proctored quiz platform** with tab-switch detection, copy-paste blocking and activity monitoring to prevent cheating.
- Developed **coding playground with test case validation** supporting automated result evaluation and real-time violation tracking.
- Implemented REST APIs and deployed containerized execution environment using **Docker**; handled **100+ test submissions**.

EcoLoop

[Live](#) , [Github](#)

ReactJS, Node.js, Express.js, MongoDB, Google Vision API

- Built an AI-powered platform suggesting **3+ circular actions** (reuse, recycle, donate) for scanned items.
- Integrated **Google Vision API** for image recognition with **95%+ detection accuracy**.
- Developed secure REST APIs with **Google OAuth authentication** and MongoDB storage.

SKILLS

Frontend	ReactJS, Next.js, TailwindCSS, HTML5, CSS3, JavaScript (ES6+), TypeScript, Responsive Design
Backend	Node.js, Express.js, FastAPI, MongoDB, PostgreSQL, Supabase, REST APIs, Docker, Google OAuth
AI/ML	RAG, Vector Search (Qdrant), OpenRouter, LLM APIs, Google Vision API
Integrations	Celery, Redis, Google Sheets API, Resend API, n8n, Vercel, Netlify
Tools	Git, GitHub, Figma, Monaco Editor, Chrome Extensions (MV3)
Languages	JavaScript, TypeScript, Python, Java, C

EXTRACURRICULAR & ACHIEVEMENTS

Google Student Ambassador

May 2026 – Present

- Selected for Google’s invite-only campus leadership program; conducted Google Cloud and Firebase workshops for 120+ students.

Technical Head, CodezY — Coding & Programming Society

Oct 2025 – Present

- Led a 12-member team to organize hackathons, AI ideathons, and coding contests for 200+ participants; developed the society website using ReactJS and TailwindCSS.

EDUCATION

2024 - 2028	Bachelor’s of Technology at AKTU
2023 - 2024	Class 12th CBSE
2021 - 2022	Class 10th CBSE
